Medical Consultant - SMB Experiment, "Correlation of blackout threshold levels in human subjects to +G<sub>z</sub> acceleration for sustained periods'

SAM/CLI (Col Lancaster)

The attached addendum to the previously approved protocol, subject as above, is attached for your information and review. Since you participated as medical consultant on the original protocol, I would appreciate it if you would continue as consultant on the addendum. Your responsibilities are outlined in para 3c, AFR 80-33 (dtd 28 Aug 69), AFSC Supplement 1 (dtd 15 Dec 69), and USAFSAM Supplement to that regulation (dtd 16 Jul 71).

B. E. WELCH, Ph.D.  
Chief  
Environmental Sciences Division
