

HUMAN RADIATION EXPERIMENTS IDENTIFICATION

1. **NAME.** Project Ranch Hand II; Health Effects of Herbicide Exposure in Vietnam AF Personnel.
2. **WHERE/WHEN.** School of Aerospace Medicine and various clinics, Brooks AFB, TX; 1981-Present.
3. **RESEARCHER(s).** George Lathrop, William Wolfe, Richard Albanese, Patricia Moynhan
4. **AGENCY.** School of Aerospace Medicine/Armstrong Lab, Brooks AFB, TX
Scripps Clinic, La Jolla, CA
5. **SUBJECTS.** 2300 Vietnam Veterans
6. **SUMMARY.** Chest X-ray done every two years as part of subject examination; purpose of the study is to examine the health effects of herbicide exposure in Vietnam-era AF personnel. Armstrong Laboratory has rooms of subject names, consents, and other data on file.

Study Type: Operational/Confirmed, Code c - Other Research

7. **RECORDS LOCATION.** Armstrong Laboratory, Brooks AFB, TX
8. **RECORDS DESCRIPTION.** Rooms of subject names, consents and data on file.
9. **CLASSIFICATION.** Not classified.
