

FROM: SGHLC (Lt Col. Speicher/7658)

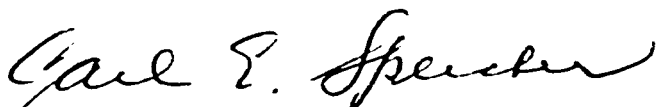

15 August 1972

SUBJECT: Research Proposal ("Inducing Splenic Hyperactivity with Typhoid Vaccine" - Principal Investigator - Lt Col. William C. Harvey)

TO: SGS (Colonel McPhaul)

1. The Clinical Pathology Service will support the above-named research project. It is understood that approximately 40 typhoid agglutinin measurements will be made.

2. Request that all test requests bear the number of the project and are identified as "Research" by the investigator.

CARL E. SPEICHER, Lt Colonel, USAF, MC
Chief, Clinical Pathology Service

Cy to: SGHR (Lt Col. Harvey)
