SUBJECT Clinical Investigation Proposal No. 374: The Use of 5-Fluorocytosine
in Mycotic Infections

TO Commander
Wilford Hall USAF Medical Center
Lackland AFB TX 78236

1. Subject clinical investigation proposal dated 18 February 1972 from your medical center has been given our file number 374. Future correspondence regarding this study should refer to its file number.
2. The Surgeon General's Clinical Investigation Committee has approved the proposal with the following suggestions:
 - a. Assure that parental consent is obtained.
 - b. A technique other than 50 mg tablets should be used for administering the drug to infants under 10 kg.
3. To assist in the proper accomplishment of this investigation you should assure compliance with (a) AFR 169-6 as it pertains to progress and final reports, (b) AFR 169-7 as it pertains to publications, and (c) AFR 169-8 as it pertains to human volunteers.
4. No resources were requested and none are allocated.
