SUBJECT: Research Protocol F-17 (72), "The Use of 5-Fluorocytosine in
Mycotic Infections

TO: SGS

1. In compliance with the attached letter from Hoffmann-La Roche, I have returned the unused portion of my supply of Ancobon and am discontinuing the study. Only one patient was on it for a complete course, and one patient has received it for a few days and will now be switched to commercial source drug.

2. Please advise me of what kind of additional report you require.

CHARLES ELLENBOGEN Major, USAF, MC
Chief, Infectious Disease Service
