

22 Sept 71

Col. F. Culver, Col., USAF, SAC  
Office of the Surgeon General

Post Office Building  
Washington, D.C. 20314

Col. Culver

Enclosed find proposal from James C Reynolds, Major, entitled  
"Radioimmunoassay of Human Thyrotrophin (TSH)" for consideration  
by the Surgeon General's Council for approval under AFR 169-6.

The proposal has been approved by the Medical Center Research  
Committee and is recommended highly for favorable action.

This proposal is considered a potentially important contribution  
to clinical research program.

This proposal will be supported out of clinical research operating

budget fully

W. McPHAIL, Col., USAF, MC  
Director of Research  
Clinical Medical Laboratory (Clinical)
