SUBJECT

Clinical Investigation Proposal No. 291, Plasma Protein Denaturation During Cardiopulmonary Bypass and the Influence of the Reticuloendothelial System Upon These Changes

TO

Commander
Wilford Hall USAF Medical Center
Lackland AFB TX 78236

1. The Clinical Investigation Proposal, dated 23 July 1970, from your command has been given the title, Plasma Protein Denaturation During Cardiopulmonary Bypass and the Influence of the Reticuloendothelial System Upon These Changes and our file number 291. Future correspondence should refer to this number and title.
2. The Surgeon General's Clinical Investigation Committee has approved this proposal.
3. An expenditure of \$5465.00 is authorized. Direct communication is permitted with AMD (AMR), Brooks AFB, TX 78235 in accord with paragraph 3b(4), AFR 169-6.
4. The approval of this investigation in no way implies change to, nor abrogates, existing Air Force regulations or Surgeon General policies. Progress reports will be made as directed by AFR 169-6. The provisions of AFR 169-2 apply.
