MEMORANDUM FOR SGHC  
 SGH  
 SGP  
 SGI  
 IN TURN

FROM: SGHC

SUBJECT: Arctic Aeromedical Laboratory Study, Ladd AFB AK

As indicated in the attached information from Col Merritt, SGPT, HSC is ready and willing to accept the funds to complete subject study. SAF/FMBO has agreed to distribute the funds, AF O&M (appropriation 3400), to Brooks AFB through AFMC. Use of the funds will be restricted to the subject project.

Brooks AFB has some 3400 funds so there is no need to "re-color" the money. The funding language however, will be clear concerning the use of the \$150,000. A memo will be prepared within the week and the funding document will be a January document released on or about 30 January. All funds will need to be used during this fiscal year, either through direct spending or through a contract grant for the total amount. FMBO was clear that it did not receive additional funds for this effort, but was directed to fund studies of several instances involving radiation testing conducted on "native populations" from FY 94 funds.

AF/SGPT POC is Col G. Merritt, DAN 297-5078; SAF/FMBO POC is Tracey Meyer, DSN 224-7510; AF/SGHC POC is Capt Brian Grassi, 297-5058.

  
 THOMAS A. PETERS, Colonel, USAF, MSC  
 Chief, Financial Operations  
 Directorate of Medical Programs  
 and Resources  
 Office of the Surgeon General
