Dr. Everett Idris Evans  
 Professor of Surgery  
 Medical College of Virginia  
 Richmond 19, Virginia

Dear Dr. Evans:

The following instructions have been issued for all shipments pertaining to Operations BUSTER:

1. Rail: Material shipped by rail will be addressed: AEC Field Manager, 300 Fremont Street, Las Vegas, Nevada; each box or other unit will be marked with the operation and project code number (Example B-3.2) and further marked with the ultimate destination, either Indian Springs or Nevada Test Site. At the time shipment is made, a copy of the shipping documents must be sent to the AEC Field Manager, 300 Fremont Street, Las Vegas, Nevada, for his information, together with any notices of special handling.
2. Motor Transport: Material to be shipped by motor transport will be addressed to: AEC Field Manager, Indian Springs, Nevada; it will be marked with the ultimate destination, either Indian Springs or Nevada Test Site, and will carry the project code number. At the time shipment is made, shipping documents or a memorandum of special instructions for off-loading, etc., should be sent to AEC Field Manager, 300 Fremont Street, Las Vegas, Nevada.
3. Commercial Air: Material shipped by commercial air freight will be addressed the same as for rail shipment. Instructions concerning any required special handling or storage procedures should be sent in advance by air mail or telegram to the AEC Field Manager, 300 Fremont Street, Las Vegas, Nevada.
