Dr. John Butterfield
Medical College of Virginia
Surgical Research Laboratory
Radiation Division
Box 816
Richmond 19, Virginia

Dear Doctor Butterfield:

I am glad you had an opportunity to visit the Navy's
Brooklyn Materiel Laboratory.

At your earliest convenience, I would appreciate a
brief summary of how the projected plan was presented to you
and your candid opinion on whether the plan, as projected,
will answer the questions concerning protective value of
clothing and the damage to skin beneath such clothing.

Sincerely yours,

FRANK L. BAUER
Lt. Col., M. C.
Chief, Research Branch
Medical Research and
Development Board
