Colonel John R. Wood, Chairman  
Research and Development Board  
Department of the Army  
Office of the Surgeon General  
Main Navy Building, Room 2749  
Washington 25, D. C.

*350, 5th ave*

Dear Colonel Wood:

In a telephone conversation this week with Colonel Levey of the Schenley Corporation I learned they were having considerable difficulty with our Customs people over admission of the one thousand bottles of Periston which we requested them to get for experimental studies by several of the groups working with your office. Apparently the Customs want to charge a rather large amount for entry. It would be very helpful if you would have someone in your office communicate with Colonel Levey and do what is proper to have them speed up admission of this product so the experimental studies can go forward at once. I mentioned this to Colonel Stone the other day and he indicated that entry of this material for experimental purposes can be authorized by the Army.

*will. 2.*

I am sorry you can't be here tomorrow but we are looking forward to seeing you on Monday, 16 October 1950. There are a hundred things to talk about.

Yours sincerely,

*Everett Idris Evans*
