Colonel John R. Wood, Chairman
Medical Research and Development Board
Department of the Army
Office of the Surgeon General
Main Navy Building, Room 2749
Washington 25, D. C.

Dear Colonel Wood:

Thank you for sending me a copy of your letter to
Doctor Walter Bloom concerning the C-14 tagged Dextran.
I simply write to indicate that I hope enough of the
tagged product will be available so that persons like Ravdin,
Zollinger and myself can get biopsy studies made in human
patients who have received some of the tagged Dextran. I
think the actual counting may well be done in one place but
all of us have facilities for doing C-14. Especially will
it be important for Zollinger to have a little because he
does have good plans for getting biopsy material.

Yours sincerely,

Everett Idris Evans, M. D.
