MEDDH

18 December 1950

Dr. Everett I. Evans
Medical College of Virginia
Richmond 19, Virginia

Dear Doctor Evans:

In your letter of 8 December 1950 you requested information on the possibility of obtaining two microscopes from the Army for use on your project.

We have investigated the possibility of obtaining two of these microscopes for this purpose and find that the Depot stock level on this item is not sufficient to permit it at this time.

With the anticipated expansion of the Army, the supply of this item will become more and more critical. It is therefore believed that you should take necessary action to procure these two microscopes under your contract.

Sincerely yours,

JOHN R. WOOD
Colonel, Medical Corps
Chairman, Medical Research
and Development Board

ROBERT D. FAKES
Captain, MSC
Medical Research and
Development Board
