Dr. Everett Idris Evans
Professor of Surgery
Medical College of Virginia
Richmond 19, Virginia

Dear Dr. Evans:

Thanks so much for your informative report of the Forest Glen experiments with Swedish dextran. A copy has been forwarded to Dr. Lawrason, as you requested.

We will send a brief abstract of it with our regular report on plasma substitutes to Dr. Meiling, and also circulate the full report to Col. Pulaski and Dr. Bloom.

We have also received your full progress report, a copy of which has been forwarded to NRC. I have had time only to glance through it so far, but I shall read it with interest, as time permits.

Sincerely yours,

JOHN R. WOOD
Colonel, MC
