

8 July 1944.

Rear Admiral **Walter W. Smith, (MC) USN**
Research Division
Bureau of Medicine and Surgery
Washington, D.C.

Dear Admiral Smith:

You will find enclosed with this note the completed "Form X", requesting permission to try the experiment about which we have talked on several occasions. We have again talked the matter over with Doctor Stacy Guild, and with Doctor Haines whom we suggest for the active investigator in this experiment, and with various local doctors.

We would very much like to go ahead with the experiment. Anything that you can do toward facilitating this for us would be greatly appreciated.

Kindest personal regards.

Most sincerely,

C. W. Shilling
Captain, (MC), U.S. Navy

CWB;JWK
Enclosure - proposed Form "X"
