Dear Captain Shilling:

It was good news to hear the project has been approved and that I am to be assigned to the Base.

Could you have your secretary write me of any houses or apartments, furnished or unfurnished available after the first of September? Are there any on the Base? I have already contacted two realstate agents in New London who have not been able to do anything for me. I should like very much to be settled before reporting for duty.

Sincerely

Henry L. Haines, MD.
