Re: Contract Nr. DA-49-007-MD-533

Dear Dr. Nickson:

Attached hereto is an abstract card of Army Medical Research Laboratory Report No. 208. I have asked that a copy of the complete report be forwarded to you directly from the Laboratory since I believe that it may be of some interest in connection with your research presently being conducted under the contract cited above.

We are requesting our laboratory to continue investigation of their findings as set forth in reference report, but concurrently, would like to inquire as to whether you see any possibilities of applying this test to patients undergoing whole-body irradiation in order to obtain an indication as to its possible applicability to man.

I shall await your decision in this matter and will appreciate greatly any comments you may wish to make.

Yours very truly,

1 Incl - Abstract
