19 September 1945

Mr. Wright Langham
P.O. Box 1663
Santa Fe, New Mexico

Dear Mr. Langham:

Inclosed is a brief resume of _____ medical history,
and a graphic record of the patient's hospital course is forwarded
under separate cover.

The jaundice which this patient developed was apparently
an infectious jaundice from which he recovered before his discharge
from the hospital. At the time of discharge the patient was
ambulatory and in good condition.

Approximately 15 teeth have been extracted by Captain
Peter Dale, and the rate of healing of the extraction sites was
within the limits of normal.

More bone specimens and extracted teeth will be shipped
to you very soon for analysis.

We would appreciate receiving your records of the complete
analyses on the urines, feces, bone samples, and teeth at your
earliest convenience.

For the District Engineer:

Very truly yours,

This document contains information affecting
the national defense of the United States within
the meaning of the Espionage Act, 50 U.S.C., 31
and 32, as amended. Its transmission or revela-
tion of its contents in any manner to an un-
authorized person is prohibited by law.
