

Department of Energy
Washington, DC 20585

August 25, 1986

Honorable Edward J. Markey
Chairman, Subcommittee on Energy
Conservation and Power
Committee on Energy and Commerce
House of Representatives
Washington, D.C. 20515

Dear Mr. Chairman:

This is in response to your letter dated July 18, 1986, in which you identified five documents and requested that the Department of Energy determine whether these records may be disclosed to the public. The documents concern human radiation experimentation and were sent to your Subcommittee by the Department's letter dated January 2, 1985.

We have reviewed the documents in question and determined that the information is not exempt from public disclosure. Although some of the information may involve the privacy of individuals, the public interest in radiation exposure outweighs any invasion of personal privacy which may occur with disclosure.

If we can be of any further assistance, please let me know.

Sincerely,

Alvin W. Trivelpiece
Director, Office of
Energy Research
