Mr. Emory L. Van Horn  
 Brookhaven National Laboratory  
 Upton, New York

Dear Van:

I know these visits are an additional burden to you as well as to the staff of the Laboratory but they are very helpful to the Washington group and to the advisors to our Division. All of the arrangements and all of the presentations went very smoothly and I am sure you are to be congratulated for at least part of the success of the meeting.

I was glad that Merrill Eisenbud was able to be there and also found time to come out Saturday to meet with the Committee in executive session. It is important for management all along the line to have the opportunity to talk with advisory groups and help in arriving at satisfactory decisions.

Kindest personal regards.

Most sincerely,
