Dear Bob:

Thanks for your letter of August 3 in which you suggested that the ACBM be sent copies of the JCAE Hearings on the proposed legislation relating to record-keeping and workmen's compensation coverage. Miss Elmo has obtained copies and they will be in the mail very shortly.

I appreciate your giving this problem as great thought as it is apparent that you have done. I am not sure exactly what form our discussion of the record-keeping system will take at the next ACBM meeting, but we are working on it and hope that we will be able to have all of the information that is available to us and which will be useful to the ACBM for the purpose of deliberation. A problem that appears to be arising concerns the real objective of the proposed record-keeping. I am not quite clear yet on this point myself but hope the next few weeks will help me to understand it.

I look forward to seeing you in September.

Sincerely yours,

John R. Totter, Director  
 Division of Biology and Medicine
