Miss Rosemary Elmo
Advisory Committee for
Biology and Medicine
U.S. Atomic Energy Commission
Washington, D.C. 20545

Dear Rosemary:

Enclosed is a draft of letter to Chairman Seaborg.

Because of the uncertainty as to the names of some of the AEC Headquarters Personnel, would you please make certain that I have listed the correct people and add any names which I may have omitted.

I am also enclosing a letter from Dr. Stout and from Mr. Riley. Would you see to it that copies of these letters are sent to the members of ACBM?

I will be in Mexico December 3 to 15 and at Bethesda, December 18 and 19 (meeting of Advisory Committee to Director of NIH). I will try to reach Dr. Totter by phone from NIH on December 18 or 19 to discuss the matter of a subcommittee for the UCLA review. In the meantime, would you ask him as to how many (if any) outside reviewers we should consider for this. I consider Dr. Moseley definitely and Drs. Bale and Stout as possible representatives from ACBM.

At the moment there appears to be a reasonable doubt that I will be able to attend the January meeting of the ACBM. I have talked with Dr. Moseley about this and he has assured me that he will attend. My problem is that of a conflict on January 9 and 10 which I am at present not able to resolve in favor of the ACBM meeting. However, I will continue to keep the matter under review and if at all possible, I will try to be there.
