## 145th MEETING, ADVISORY COMMITTEE FOR BIOLOGY AND MEDICINE

The 145th meeting of the ACBM will be held January 3-4, 1973, at the Oak Ridge National Laboratory, instead of January 12-13 in Puerto Rico, as originally scheduled.

This meeting is being held in order for the ACBM to review the letters of nomination of individuals from the biomedical and environmental community for the Lawrence Award. As an adjunct of this activity the Committee will be requested to review the various biomedical and environmental programs conducted in the national laboratories that are being supported with non-AEC funds. Specific attention will be given to exploring the impact of these programs on the programmatic concerns of DBER and other related Commission programs.

Please let me know as soon as possible if you or a representative of your office are planning to attend this meeting.
