ROOM 5500
49 WEST 49TH STREET
NEW YORK 20

January 23, 1951

Dear Dr. Smyth:

Thank you for your letter of January 19. I am passing it along to the other members of the Advisory Committee for Biology and Medicine and I know that they will greatly appreciate your courtesy in having written it.

I take this opportunity of saying that it is a special satisfaction to all of us to have the opportunity to visit the different installations periodically and we much appreciate the chance this gives to understand in more vivid and definite terms what is going on in the different installations and laboratories. We were much impressed by the progress made at Hanford, particularly in the biological studies and in the health-physics division, and I expect that you will before long have the report of our meeting in Hanford.

Yours sincerely,

Alan Dregg
