[Redacted]

Dear [Redacted]

This is in reply to your letter of May 5, 1972.

We are building a large accelerator at Los Alamos which will produce a certain kind of particle which we hope will have advantages in the treatment of certain types of tumors.

Unfortunately, our accelerator facility will not be completed for another year. After that several years will be required for animal experiments and clinical trials.

I feel certain, from what you say, that your husband is receiving the best possible treatment. [Redacted] also had a colostomy and lived for many years with it and in reasonable comfort.

Please accept my very best wishes. I am returning to you the \$1.00 you sent for postage.

Sincerely,

Louis Rosen
