Dear Klig:

Subject: [REDACTED]

[REDACTED] is a physicist from [REDACTED] who has been very active in the design of linear accelerators and is very interested in our Pion Therapy Program. She has worked with [REDACTED] and other mutual friends of ours in this field.

She has had cancer and would like to have all of the information you could send her about our program. I am forwarding some of our early literature to her along with a copy of this memo. I would appreciate it if you could send some of your recent papers to her. Her number is on FTS at [REDACTED] if you could talk to her. Thanks.

Sincerely,

E. A. Knapp
