May 29, 1952

To the Members of the Advisory Committee on  
Intercampus Medical Teaching and Research

Dear Sirs:

It has not proved possible to find a time in the near future when all members of the Committee can be present. I am, therefore, enclosing herewith a revised draft of a tentative letter to President Sproul regarding the relationship between the School of Medicine and the Division of Medical Physics. This draft reflects several discussions which I have had with members of the Committee and with other interested individuals, and as you can see from the copy of Dean Smyth's letter of May 22, 1952, it has the approval of Drs. Althausen, Kerr, Smyth and others from the School of Medicine.

I should greatly appreciate it if you will read the revised draft carefully and let me have your suggestions. If I receive several suggestions which will require a substantial change in the content of the letter I shall hold these for discussion at a meeting of the entire Committee to be held at 4:30 p.m. on June 18 or as soon thereafter as possible. If on the other hand, there is substantial agreement on the letter I shall incorporate any suggested minor changes and circulate the final draft for signatures.

Sincerely yours,

(s)

W. M. Stanley, Chairman  
Advisory Committee on Intercampus  
Medical Teaching and Research
