DR. JOHN H. LAWRENCE

I just received your note of May 15 regarding the Metabolic Unit. Where it has been for the last seven days I do not know. I have talked with you regarding this since the time you wrote the note, and will reaffirm this and give you the latest information.

I told Mr. Miller, in Mr. Corley's office, via the telephone, that in all probability the A.L.C. will provide money for the equipment and to lean towards the two story addition. As soon as there is time for some reaction to my letter to the A.F.C., we will be in a position to write a letter substantiating the presently verbal conversations.

W. B. Reynolds
