BERKELEY: RADIATION LABORATORY

December 12, 1951

DR. JOHN H. LAWRENCE

Subject: Metabolic Unit

In reply to your note of December 7, the metabolic unit has been added onto a survey and report to the A.E.C. which is to cover all our needs for the next several years. We do not know as yet whether this program will be approved in toto nor, of course, whether money will be provided for any given item, nor what percentage of the program will be approved. Since this particular item is not large in dollars, if we can get approval for the program, the funding should not be too difficult.

W. B. Reynolds
