BERKELEY: DIVISION OF MEDICAL PHYSICS

October 19, 1949

MR. R. A. SANS SOUCI:

Dear Bob:

Will you work up a letter to the President opening up this metabolic unit question again. In other words, take it up from where I left off in the last letter I wrote to him in the last letter I wrote to him last year. I remember I wrote to him for special permission to take this up with the AEC Dr. Shields Warren and he never acted on it. You might get those letters out and work up a letter to him bringing everything up to date saying we have used this temporary quarters now for such a period of time, how it is working out, that it doesn't work out too well etc. Give him the amount of money we now have on hand and so forth. In other words, work up a preliminary letter on this, will you?

JHL/ic

John
see attached

Sincerely,

John H. Lawrence
