Dr. E. O. Lawrence, Director
Radiation Laboratory
University of California
Berkeley, California

Dear Ernest:

I expect to be in Berkeley August 9 and 10
(arriving on the City of San Francisco and leaving
Wednesday morning for Los Alamos). I have no momentous
problems on my mind but would like an opportunity to
catch up on a number of things and a chance to talk
to you and your colleagues on several points.

If you had not planned to be in Berkeley
at that time please make no special arrangements. I
presume I can always count on finding a few members
of the team.

Yours very sincerely,

Jim

J. B. Fisk

Wine
Delighted you are coming
out next week.
Ernest
