 BOX No. 5579
 FOLDER 9

Dear Dr. Bronk:

The Commission is very appreciative of your acceptance to serve as a member of the Advisory Committee for Biology and Medicine. As you know, the committee will be looked upon to advise the Commission on general policy in the field of medical and biological research and health.

Drs. Hastings and Goodpasture, who were on the Medical Board of Review with you, have accepted our invitation to be members of the Advisory Committee. At our request, Dr. Gregg has agreed to act as chairman. We are asking Dr. G. W. Beadle, Dr. J. T. Wearn, and Dr. E. C. Stakman to serve as the other members. There is no question in our minds as to the outstanding competence of this group of men. We consider the work to be done by the Committee of the highest importance.

When acceptances have been received from all the members, we will get in touch with you to arrange for the first meeting of the Advisory Committee. We consider the advice and assistance of the Advisory Committee in the selection of the Director for Biology and Medicine of immediate importance.

Sincerely,

ATOMIC ENERGY COMMISSION

David E. Lillenthal
 Chairman
