 FOLDER MHS-3-10 1971

Dear Captain Tedford:

This is in answer to your letter of September 1, 1971, with regard to the availability of DTPA.

According to the Investigational Drug Regulations it is required that those physicians in charge of the treatment of patients with DTPA file with the AEC a Statement of Investigator and a Research Protocol. DTPA will then be made available upon receipt of these documents. For your convenience I have enclosed several copies of the necessary documents plus a copy of the pertinent part of the Code of Federal Regulation.

If I can be of further assistance to you, please do not hesitate to call on me.

Sincerely,

Walter H. Weyzen
 Medical Research Branch
 Division of Biology and Medicine
