Dear :

Your letter of April 22, 1971, <sup>att.</sup> to Chairman Seaborg, has been referred to this Division.

Regrettably, the information in your letter is insufficient to permit comment about your husband's illness. It would be kind of you to write in sequential order the places and dates of his employment, his supervisors' names, the employers, and the work which he carried out at each employment. Please correlate your husband's medical experiences and history with his employment, including names of physicians. Date and place of birth are also useful statistics.

Is by any chance a veteran? Has he been awarded occupational compensation for medical reasons?

Your answers to the above will be of great assistance in clarifying the situation.

Sincerely,

PRIVACY ACT MATERIAL REMOVED

John R. Totter
