

December 31, 1974

Francis A. Goswitz, M.D.  
 Oak Ridge Medical Clinic, P.C.  
 170 West Tennessee Avenue  
 Oak Ridge, Tennessee 37830

Dear Doctor Goswitz:

Enclosed is a referral list of those ORAU patients who have been unable to make other arrangements for private care and have expressed a preference for being referred to the Oak Ridge Medical Clinic, P.C. for continued medical care. Each of these patients has participated in the ORAU clinical investigation program as a research subject and therefore meets the criteria established for ORAU to guarantee as stated below the costs of continued care of the diseases for which they were originally accepted or studied at ORAU.

The list includes the diseases or conditions for which we are authorizing treatment under our agreement to pay for all costs not collectible from insurance, Medicare, Medicaid, or personal funds. If you believe the list contains errors or deficiencies we would appreciate your bringing them to our attention at an early date.

We will appreciate receiving periodic reports on those patients for whom we can expect to receive itemized bills. If in the course of their illnesses, any changes in the diagnoses or any complications develop requiring extensive modification of treatment, you should notify us as soon as convenient so that we can amend our referral and authorization for treatment.

Sincerely,

C. Lowell Edwards, M.D.
