Dr. G. L. Voelz
Division Leader,
Division Health Research
University of California
Los Alamos Scientific Laboratory
1663 Post Office Box
Los Alamos, New Mexico 87544

Dear George:

I have enclosed my memo to Dr. Liverman, which provides in outline form a protocol for the study. I prepared it at his request on the basis of your 189 and the revisions suggested in our conference in George Hutchison's office. It should not influence your thinking on the development of your own protocol.

Sincerely,

(S)

Sidney Marks, M.D.
Analysis and Assessment Programs
Division of Biomedical and
Environmental Research
