Mr. D. K. Nowlin, Director
 Special Programs Division
 Albuquerque Operations Office
 U.S. Energy Research & Development Administration
 Albuquerque, New Mexico 87115

SUBJECT: AUTOMATED CANCER-CELL SORTING AND ANALYSIS; CONTINUATION
 OF NCI-SPONSORED PROJECT AT LASL (R030)

REFERENCE: 1) Proposed Modification 6 to Interagency Agreement
 Y01-CB-10055 (attached).
 2) Proposal LASL #P-402.

Dear Duke:

The attached document reference 1) has been prepared by the National Cancer Institute on the basis of Proposal reference 2), and provided to LASL on an advance basis. The work described in the proposed agreement modification falls within the scope of reference 2). We do note, however, some points of apparent inconsistency between reference 1) and reference 2), and some points (in reference 1) which we feel may be subject to possible misunderstanding. We have prepared a short document in the form of supplement to reference 1) (attached) intended to clarify possible misunderstanding.

The Los Alamos Scientific Laboratory would be pleased to perform the work described in reference 1). In the event the NCI should offer a Modification 6 to referenced agreement consistent with the enclosed reference 1) formally to your office, we request it be accepted and LASL authorized to undertake the work, but subject to the supplemental agreement hereby proposed.

I have discussed the enclosed supplementary agreement by phone with Ms. Cathy Kibler of the National Cancer Institute. She indicated that a supplement would be acceptable as to form, and that the content would be given

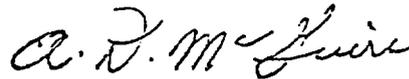

April 7, 1975

consideration upon receipt by NCI. By copy of this letter, we are providing the proposed supplement to the NCI on an advance basis, addressed to:

Ms. Cathy Kibler
Landow Building, Room C437
National Cancer Institute
National Institute of Health
Bethesda, Md 20014

Thank you very much for your consideration of our suggested supplement.

Sincerely,

A. D. McGuire
Special Projects Office

Enc: a) Mod. 6 to Y01-CB-10055 (unsigned)
b) Proposed supplement to Mod. 6
