SUBJECT: Telephone Conversation with Dr. Waterhouse, 6/1/73

Dr. Waterhouse called to state that the daily bill for our recent patient in Strong Memorial Hospital would be \$132, not the \$90 per day she quoted us. She was apologetic, but has apparently quoted us last year's rate. I assured her it would not cause us any real problems.

This rate will also be applied to our next patient. Regarding this patient, she would like to know just what we want done. I told her that I would ask Dr. Littman to develop a protocol and to call her next week.
