Dear Dr. Struxness,

After discussing your supplemental proposals with Dr. Sweet we agree that we will be able to completely comply.

We are now awaiting the arrival of Mr. Gallimore for instructions as to the method of preparing the tissues for shipment to you. In the interim may we suggest that you analyze some tissues, with known amounts of enriched uranium, by the electrodeposition method. By this we will confirm the suitability of the method for tissue analysis and gain insight as to the accuracy.

*10-5-53
