REPORT ON INDUSTRIAL HEALTH PROGRAMS

SYMBOL: OPG-1175

The Brookings Institute, which is engaged in a study of the availability of health services in the United States, has requested that AEC provide certain information regarding its activities in the field of medical research, hospitalization, and industrial health. The request was carefully screened and reduced to the data outlined on the attached form and limited to the contractors on the attached list.

It is, therefore, requested that a form similar to the attached be prepared for each of your installations listed and submitted in duplicate so as to reach the Director of Organization and Personnel, Washington, not later than April 2, 1951.

Attachment

Addresses:

- A. Tannaro, Manager, Chicago Operations Office
- David F. Shaw, Manager, Hanford Operations Office
- ✓ W. E. Kelley, Manager, New York Operations Office
- S. R. Squires, Manager, Oak Ridge Operations Office
- Carroll L. Tyler, Manager, Santa Fe Operations Office
- J. D. Anderson, Manager, Schenectady Operations Office
