Dear Herman:

Thanks for offering your assistance to the neptunium problem. The people at Hanford seem to have the problem well in hand and expect to have the information Neal Wald is interested in within the next two or three months. At the end of this time, we will go over the data with Neal in order to determine whether further information or study is needed. If so, we will keep your offer in mind.

Sincerely yours,

William E. Lotz  
 Medical Research Branch  
 Division of Biology and Medicine
