Dr. Dunham

## TELEPHONE CONVERSATION WITH HERMAN PEARSE

I had a telephone conversation with Herman Pearse who is trying to get his program going, and it seems that in order for him to make available adequate logistic support he should be listed under the military rather than under AEC in the AFSWP books. Apparently all that this will take is a letter from yourself or Shields to the Chief of AFSWP with a copy to Colonel McDonald requesting that inasmuch as Dr. Pearse's test project involves cooperation from several branches of the military service, it is requested that he be listed among the military members of the Effects program and assigned to Project 4.1.
