BERYLLIUM HAZARDS

SYMBOL: SF-2

PUBLISHED

9/23/98

Attached is a copy of a memorandum from Dr. Bradbury regarding beryllium hazards, which is forwarded for your information and guidance.

As to paragraph 3 of the memorandum, it is suggested that a meeting be held at some place, other than here or in your vicinity, attended by yourself and any other persons whom you choose to designate and representatives from the Industrial Medical Group at Los Alamos. At the time of this conference it can be decided, or at least recommendations can be made, as to the use of some local physician, as suggested in the memorandum.

Will you please suggest a place and date of meeting (perhaps Kansas City), and necessary arrangements will be made for representatives from this Project.

Elmo R. Morgan
