Dear Lt. Anderson:

Some time ago you asked me to secure for you information relative to a number of U. S. Patent Applications. I am now able to report concerning these applications giving the pertinent information in the attached table. The number of the Chilowsky French Patent which you gave (449,606) appears to be in error. Only two U. S. Chilowsky Applications bear on this subject, and they are included in the table.

If there is any further information you desire, I will be glad to furnish such help as I am able to.

Very truly yours,
