DATE 3 May 1945

**CLASSIFICATION CANCELLED  
PER DDO REVIEW JAN. 1973**

TO: N. E. Bradbury

FROM: W. S. Parsons

SUBJECT: Paraphrased Teletype Reference TA-1203 dated 2 May

Signed Parsons, Action Derry, To Farnell and Hussey, via Groves

Parsons recommends that clearance be given so that Lt. (jg) V. S. MacIntyre (serial #244626) can visit Y in connection with explosive casting work. MacIntyre is attached to NMD Yorktown and works for Lt. Hudson Bullard there. He has been doing machine tool designing for machining H. E. castings at CIT for the past several weeks. T. Lauritsen and Parsons agree that if MacIntyre were to visit S Site at Y his usefulness to the project would be greatly increased. In this way, NMD Yorktown would be able to put forth increased and improved production.
