Dear Dr. Bradbury:

Reference is made to your letter of 11 December concern-
ing correspondence on technical matters.

I agree with your opinion that an effort should be made
to obviate such unnecessary administrative procedure as you have
cited in your letter. Instructions will be issued to appropriate
Project offices to send simultaneous copies of technical corres-
pondence to both you and Colonel Gee whenever such procedure will
expedite the business at hand.

Sincerely yours,

K. D. Nichols
