INTER-OFFICE MEMORANDUM

DATE 28 July 1944

TO: W. S. Parsons

FROM: M. M. Bolstad

SUBJECT: Streamlined F.M. Shell and Case, Drawing #1291

CLASSIFICATION CANCELLED
PER DOC REVIEW JAN. 1973

47.6
37.1

The undersigned have inspected the above revised design for a two piece ellipsoidal armor shell to be used with the cast aluminum hemisphere, zone, and polar cap. The unrevised copies of this design have previously been sent to Commander Flynn's office. They recommend the procurement of one each of the armor shells, made to the revised design, through the Bureau of Ordnance as per the teletype reference EIDM WL 15-V-323, signed Hudson Moore, dated 21 July 1944. If this is satisfactory, prints of the revised design will be sent on to Hudson Moore for forwarding to Commander Flynn.
