Dr. Leslie B. Seely
Group J-3
Los Alamos Scientific Laboratory
Los Alamos, New Mexico

Dear Dr. Seely:

Having made more definite plans concerning the photo-graphic problem about which we spoke, I wish to inform you that we have decided to use Eastman Super XX negative film. Can you forward information pertaining to necessary shielding against probable radiation?

We have decided to use the Fastax camera at a low rate of speed incorporating an ultra wide angle lense, primarily because this equipment belongs to us and would not involve the problem of repairing or replacing equipment belonging to another organization.

If you can further inform me as to when I might possibly talk to someone from EGG I would appreciate this.

Thanks very much.

Sincerely,

Merrill A. Palmer
