Record Copy held at Mound Facility

Mr. James V. Goure,  
Deputy Chief for Atomic Energy Commission,  
Joint Atomic Information Exchange Group,  
The Pentagon, Room 1-B-744,  
Washington, D. C. 20301

Dear Mr. Goure:

By our letter of February 12, we sent you three copies of a report entitled "Analysis of Stainless Steel," MLM-CF-65-2-201. Two copies of the report were to be submitted to Dr. Francis H. Panton, Joint Atomic Information Exchange Group, Atomic Coordinating Office, British Defense Staff, British Embassy, 3100 Massachusetts Avenue, N. W., Washington, D. C. 20008. The third copy was for your files.

Upon reviewing the completed report, we found several errors which should be corrected. In Figures 2, 3, 4, 5 and 6 the right hand ordinate should read from the top down: 10, 1, 10<sup>-1</sup>, 10<sup>-2</sup>, etc. In addition, "pt cathode" in Figure 3 should read "Pt cathode." The left hand ordinate of Figures 2 and 6 should read "TRITIUM CONCENTRATION (microcuries per gram of steel).

Because of the interest in the United Kingdom in these studies, we would appreciate your transmitting this information to them so that their reports will be accurate.

We are sorry that an errata sheet was required; however, we feel that technical accuracy in these matters is of utmost importance.

Very truly yours,

Original Signed by Frank D. Shearin
