MOUND LABORATORY-MONSANTO

CENTRAL FILE NO. 65-7-254

TO : Mr. J. J. Spicka

Released through the MOUND LS DR PROJECT (funded through DOE's OPENNESS INITIATIVE) Record Copy held at Mound Facility

The items listed below are required for research and development support of the reservoir surveillance program. The purchase order should be directed to the attention of J. A. Stanley, Jr. ACF Industries, Albuquerque, New Mexico. I have had telephone discussions with both Mr. Stanley and also W. A. Whitesell concerning this order. Hence, ACF Industries is expecting the order and know in detail of our requirements. Delivery is estimated at six weeks and the cost as shown below is within 10 per cent of the official cost quotation.

The items listed below correspond to the items in unclassified purchase requisition number 46319 to be purchased from ACF Industries.

Item 1 - 10 each Reservoirs, Type MC-1219, as per page 14, ACF document "Pressure Systems Program," March 1, 1965, and per telecon T. B. Rhinehammer to J. A. Stanley and W. A. Whitesell, ACFI.

Reservoirs are to be less than WR quality, i.e., nicks, scratches and dimensions, but adequate and prepared for WR filling of a D/T mixture by SRP.

Reservoirs are to be shipped to the Savannah River Plant, Attention J. E. Conaway.

Please place this order as soon as possible.

T. Ben Rhinehammer
